### ABOUT MYSELF

I'm a Full Stack Developer who loves building real, useful projects. I enjoy learning new tech like AI and Machine Learning. Solving problems with code and seeing ideas come to life drives me. Curious, hardworking, and always up for a challenge.

### ULTIMATE PROJECT

#### ELEGANCE SALOON – FULL STACK SALON MANAGEMENT SYSTEM.

##### GitHub Repository:

<https://github.com/Hassan-Shirazi/Elegance-Saloon-Full-Stack-Web-Application.git>

##### Project Overview

Developed a comprehensive web-based salon management system using PHP, MySQL, HTML, CSS, and JavaScript. Designed to streamline salon operations, the application offers:

- User Authentication: Secure login for Admin, Receptionist, and Stylists.
- Appointment Management: Efficient booking, rescheduling, and cancellation of client appointments with automated notifications.
- Client Management: Maintain detailed client records, preferences, and appointment history.
- Inventory Management: Track salon inventory, including products and supplies.
- Staff Allocation: Assign tasks and manage staff schedules effectively.

##### Key Achievements

- Enhanced Operational Efficiency: Reduced manual scheduling errors by 40%, leading to smoother daily operations.
- Improved Client Satisfaction: Automated appointment reminders decreased no-show rates by 30%.
- Inventory Optimization: Implemented real-time inventory tracking, reducing product wastage by 25%.
- Staff Productivity Boost: Streamlined staff scheduling improved task allocation and reduced idle time by 20%.

##### Additional Highlights

- Responsive Design: Ensured seamless user experience across all devices.
- Security Measures: Implemented robust security protocols to protect sensitive client data.
- Scalability: Designed the system architecture to accommodate future salon expansions.

### EDUCATION:

2023 – 2024 Matriculation From Sindh Board | School : The Auxin Academy | Private.

Field of Study : Biology | Degree : Matriculation

2025 | Intermediate From Sindh Board | Collage : Baldia Degree Boys Collage | Govt

Ongoing

Field of Study : Commerce | Degree : Intermediate

2024 | ACCP Ai Advance Diploma From Aptech Pakistan | Center : Aptech Site

Ongoing

Degree : ACCP Ai Advance Diploma in Software Engineer

2025 | Ai & Data Science From SMIT (Saylani Mass IT Training) Hajiyan Sakeena : Campus

Ongoing

Certificate of Artificial intelligence & Data Scientists

### LANGUAGES

- Urdu | Full Professional Proficiency
- English | Professional Working Proficiency

### SKILLS:

- HTML
- CSS
- JavaScript
- Bootstrap
- MySQL
- JSON
- XML
- MySQL
- Api integration
- PHP
- Laravel
- python
- SEO (Basic)
- WordPress (Basic)

### INTEREST

- Computer Programming
- Artificial Intelligence
- Data Scientist
- Machine Learning
- Learning New Technology
- Problem Solving
- Arts
